This question is extremely important when evaluating a franchise. However, occasionally a franchisee will rate this question low because the concept has changed significantly since they purchased the franchise, or because of personal issues.

RESEARCH REPORT

Confidential Franchisee Opinion Research

Methodology

The Franchise Research Institute® sent a study solicitation notification to all forty-nine (49) McAlister's Deli franchise owners. The study was completed in September 2018. McAlister's Deli personnel gave franchisee contact information to the Franchise Research Institute. The notification included the URL (web address) of the Franchise Research Institute franchisee opinion online survey and a numeric "pass code" to insure no duplication of responses.

Franchise owners were encouraged by McAlister's Deli and by the Franchise Research Institute to complete the survey, and were assured that their individual responses to the questionnaire would never be revealed to anyone outside of the Franchise Research Institute (including McAlister's Deli management).

Franchisees logged on to the online survey questionnaire, entered their individual "passcode," completed and submitted the survey. Thirty-seven (37) of the forty-nine (49) total franchisees, or 75.5%, responded and took the survey. The Franchise Research Institute has no reason to believe that non-respondents' answers would vary substantially from those respondents.

The maximum error range on this study is plus or minus 4.8% at the ninety-five percent confidence level.
